Profile

Solar PV professional transitioning into energy systems and grid integration, with hands-on experience managing 100kW+ renewable installations and technical project execution. Proven track record in data-driven system optimization, inverter and grid-tied system commissioning, stakeholder coordination, and cross-functional team leadership. Currently pursuing M.Sc. in Sustainable Energy Systems at TU Dortmund to expand expertise from technical operations into energy markets and commercial optimization. Seeking an internship or working student role in the electrification and energy transition sector to apply technical and analytical expertise to real-world challenges.

Education

M.Sc. Sustainable Energy Systems 2025 – Ongoing

Technical University Dortmund, Germany

Relevant coursework: Energy Markets & Trading, Renewable Energy Systems, Energy Economics, Grid Integration.

B.E. Electronics & Telecommunication Engineering 2020 – 2024

Savitribai Phule Pune University, India

Final Grade: 8.28 / 10 CGPA

Skills

Technical Tools: AutoCAD (2D), MS Excel (Advanced – PivotTables, VLOOKUP/XLOOKUP, Macros, VBA), MS Office

Energy Systems: Solar PV system design, Grid-tied systems, Zero Export Device (ZED) integration, Inverter configuration & commissioning, Performance monitoring, Operations & Maintenance (O&M)

Project Management: Stakeholder coordination, Team leadership (up to 12 members), Procurement & vendor management, Timeline management, Risk mitigation, Site assessment

Automation Exposure: PLC programming, Ladder logic, Siemens & Fanuc drives (CNC), Control panel wiring

Languages: English (Fluent), German (B1), Hindi, Marathi

Relevant Experience

Intern to Executive – Project Execution & Design Department Jul 2024 – Mar 2025

ZTRIC India Pvt. Ltd., Pune, India

- Delivered 4 solar PV projects (103 kW total) end-to-end, supervising 6–12 member teams and €900+ procurement; all on schedule, zero safety incidents.
- Redesigned rooftop layouts in AutoCAD, increasing capacity from 5 kW to 8 kW (+60%) through space-utilization analysis.
- Performed O&M on installations up to 110 kW; resolved inverter issues on grid-tied and ZED-integrated systems within 24–48 hours, maintaining 99%+ uptime.
- Coordinated 5–6 suppliers for cost-effective sourcing; resolved supply-chain delays within 1 week.
- Prepared weekly status reports for 5+ stakeholders, tracking capacity factor, generation vs. forecast, and maintenance activities.

Intern – CNC Machinery and Automation

Jan 2023 – Apr 2023

Technosys Automation, Pune, India

- Designed, wired, and assembled 6+ CNC control panels with a 4-member team; introduced batch workflow cutting build time 20% (10→8 days) and boosting efficiency 40%.
- Achieved 20–30% material cost savings through precision cutting and cable tray reuse.
- Hands-on with PLC programming, ladder logic, and Siemens/Fanuc drives for CNC automation.
- Conducted 12+ site visits to troubleshoot electrical faults and minimize downtime for 5–6 clients.

Projects

Solar PV System Performance Analysis & Monitoring – Analyzed generation data from 10+ installed systems (total 100 kW+) to validate performance against design expectations and identify optimization opportunities. Built monitoring dashboards tracking daily/monthly generation, capacity factors, and system health metrics for client reporting. Identified underperforming systems through data analysis, leading to corrective maintenance that improved generation by 5–8%.

Other Professional Experience

Intern – Business Development, Choice TechLab Solutions Pvt. Ltd., India

Public Relations Committee Member, Savitribai Phule Pune University

(Developed transferable skills in client communication, outreach, and event coordination.)

Certifications & Training

AutoCAD 2D Certification – Design Studio (2025). Technical drawings, site plans, solar PV layouts.

Renewable Energy Technology Fundamentals – University of Colorado Boulder (2024). Physical characteristics of renewable energy; wind, solar, and storage technologies.

Microsoft Excel – Advanced – Udemy, Kyle Pew (2025). Functions (SUM, VLOOKUP, IF, XLOOKUP), PivotTables, PowerPivot, Macros & VBA, Dashboards.

Additional Information

Achievements: Cleared college-level rounds of Smart India Hackathon 2023; Grade 'A' at Avhaan Adventure Camp (Guardian Giripremi Institute of Mountaineering) for endurance and teamwork.

Interests: Renewable energy, Adventure sports, Innovation challenges, Public speaking.
